DETAILED ACTION

Reasons for Allowance

1. Claims 1-29 are allowed.

2. Examiner's Statement of Reasons for Allowance:

Applicant(s) invention relates to a power generation system, and more specifically, to a power generation system from recurring water wave movement.

The system has power generating means positioned on the bottom of the ocean at least five feet below water level, which is subjected to the changing pressure of the moving water waves. It is sensing pressure, generating power, and transferring power to the shore.

There are inventions in the field that provide similar functionality and/or have similar features, as prior art of record shows. Applicant(s) invention differs from the prior art of record by the combination of the functional elements, which were interpreted by the examiner as disclosed and claimed, and which examiner's search failed to find.

It appears that present invention is an improvement over applicant(s)' earlier inventions of the record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant(s) disclosure.
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nicholas Ponomarenko whose telephone number is (703) 308-1776.
6. Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist, Mon. - Fri., 8 a.m. – 5:30 p.m.
